

APPLICATIONS

- Pick & Place
- Constant Feeding
- Weighing & Batching
- Filling, Packing & Palletizing
- Material Handling in Pre - Production Area
- Material Handling in Post - Production Area
- Liquid Transfer from Bulk Storage to Batching
- Custom made System Design for Belt Conveyor, Screw Conveyor, Pneumatic Conveyor, etc.

MATERIAL HANDLING

- FEATURES:**
- Reporting
 - Time Stamping
 - Repeatability
 - Higher Accuracy
 - PLC Based System
 - Ease of Maintenance
 - Reliability of Hardware
 - SCADA for Monitoring, Controlling & Reporting
